Since 2010, **Computers Nationwide** has been providing highly professional Technology Services, that are backed by quality products from industry leading manufacturers. Computers Nationwide started with two men who wanted to grow a Technology business into a highly-rated and respected company in the Industry. We took a chance starting with Zero customers and now have over 1000 satisfied customers nationwide. Although we service customers nationwide, our primary service territory is Illinois and Southern Wisconsin including: Chicago, Milwaukee, Janesville, and Madison. Our services include Managed IT Services, Network Design, Video Surveillance, Door Access Control, Low Voltage Cabling, Hosted VoIP, Consulting, Voice & Data Services, and Network Security and Vulnerability Consulting.

TESTIMONIALS

I wanted to take a moment to formally thank you for all that Computers Nationwide has done for Stamar Packaging over the past few years. From phone systems, to network cabling, to laying out a WiFi system in a 200,000 square foot warehouse. Each and every project was handled with the highest level of technical ability, finished on time and under budget. Your team is top notch. They are professional, kind, and an expert in their respective fields. It's always a pleasure to work with Computers Nationwide and I look forward to upcoming projects in the future. Thank you for your time!

**Zachary Biel - Director of Information Technology
Stamar Packaging**

"Eric - We ran into a major snag with payroll this week and needed help with backups. Ryan has been helping the office gals out and MDI (the company that provides the program) said that we have a wonderful computer consulting group to do business with. He said "Kudos to those guys". Just wanted to pass this on to you and let you know how pleased we are with Ryan's quick response. It's also nice to know we have the backups we need in a crisis and that someone will help us out when time is of the essence."

Kathy Bolchen - Fairhaven Senior Services

"OMG - Love the new version of Word!! Thought I was going to be unhappy with all the changes, but with a little help via phone/remote access from Adam, I am really excited about how easy the transition is actually happening for me. I guess you CAN teach an old secretary new tricks. Thanks for all the support and the great service from your whole crew."

Bonnie Miller - Simon Law Office

I just wanted to let you know that that you guys rock! You and the rest of your Computers Nationwide crew installed our new 8-line phone system without a hitch. We now have a great system that blows away our previous one. Whenever we needed to modify our networking on a whims notice, you guys were there for us within hours. Looking forward to working with you again!

Sherri & Chuck - Signarama-Buffalo Grove

Computers Nationwide has great customer service, whenever we need things fixed or reprogramed they are able to help right away. I get a response immediately. In addition, during all of their installs they cleaned everything up once they were finished. They are friendly, knowledgeable, and best of all great to work with.

Samantha - Star Thermoplastics
