

You have a goose problem. You've read about it in USA Today, the concern about E coli; the nuisance of the droppings; the disturbance to you and to your property users.

Finally, there's an effective, professional service you can call: Geese Chasers™, LLC, the professional geese clearing service that respectfully eliminates bothersome geese on open spaces with the fastest, most effective, reliable and humane method possible – highly trained Border Collies.

These amazing and intelligent dogs are especially bred and trained to herd or "harass" without harm.

Geese Chasers™ is The #1 NAME in Goose Control throughout North America with a history of success for its commercial, residential, state, city, and municipal clients. Geese Chasers™, LLC looks forward to putting its expertise to work for you.

Our Solution

There are a handful of methods currently used by organizations suffering from "resident Canada Goose" populations. Only one has proven to be successful. Many have tried scarecrows, flags, mylar tape and balloons. Others have tried pop guns, noise makers, fencing, and sound machines. Some have even applied chemicals to the turf. None of these provide an effective, natural and long-lasting solution. Only the use of highly trained handlers and Border Collies will control your Goose problem year-round.

BRED TO PERSISTENTLY HERD

The Border Collie is a breed of herding dogs that were reared by shepherds in the border country between Scotland and England starting in the 1700's. They have an inbred ability to stalk and herd.

When confronting geese, Border Collies will crouch, stalk and present a menacing "wolf-like" gaze. The geese will be convinced there is a predator approaching and that the property is unsafe.

THE GEESE CHASERS™ ADVANTAGE

Geese Chasers™ will visit your site daily at random times during the first several weeks. Each visit reinforces the message of danger to the goose population; soon they will relocate to other areas.

Amazingly, the Border Collie will never come into contact with geese; bringing no harm to them, to children or to anyone present. In fact, Border Collies are among the smartest and friendliest dogs you can find.

Geese Chasers™ has been so successful clearing geese, that now we are opening franchises all across the United States.

Clearing Packages

Geese Chasers™ offers standard and customizable clearing packages to suit your specific needs. Among them are:

INITIAL CLEARING

The Initial Clearing Program is set up to make the quickest and most effective impression on resident geese.

Length: 4 to 12 weeks
Clearings: Multiple daily visits, as needed

MAINTENANCE

This Maintenance Program discourages migrating geese from taking up permanent residence on your property and indefinitely dissuades them from returning.

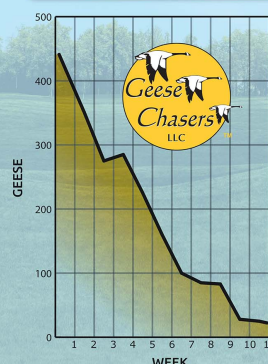

Length: Ongoing
Clearings: Daily visits, as needed

ON CALL

The On Call Program allows you to call Geese Chasers™ when you feel your property needs a clearing.

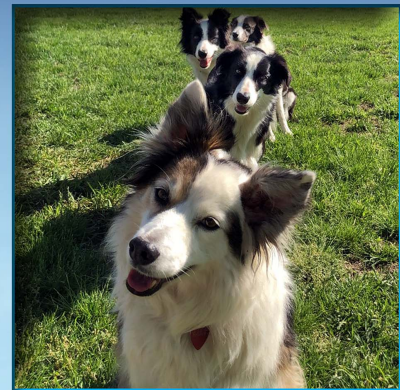

Length: Ongoing
Clearings: Within 1 hour after your call

We maintain a virtually geese free environment for our clients.

Actual Geese
Cleared Over an
11-week period

How We Get Started

After you contact us and provide us with preliminary information about your resident goose problem, we'll set up a site visit. The ideal time for this is morning or late afternoon: it is during this time of day we can best evaluate your property and gauge the number and location of the geese.

Part of the evaluation process includes an appraisal of the quickest exit for the geese on your site, typical wind direction, and areas of greatest goose residency.

After this study is complete, we'll provide you with a goose control recommendation and related costs and timing. If you report to others in your organization, such as an overseeing board, we'll be happy to present our findings and recommendations to them as well.

After acceptance of our proposal, we'll begin addressing your goose problem and within weeks, your goose problem will be a thing of the past.
