KeyTrak Edge

Intuitive. Efficient. Reimagined.

When you work at a busy multifamily property, having control over your keys is crucial to protecting your property from liability while making your residents feel safe. At the same time, keeping keys organized and easily accessible is important to a productive, well-run community.

With the reengineered KeyTrak Edge system, you can get the keys you need faster than ever before — without compromising security. Designed based on input from KeyTrak customers, the KeyTrak Edge system features an updated look and user-friendly, customizable software.

Product features include:

- An intuitive user interface.
- The ability to save favorite features and create custom views.
- Streamlined key check-in and checkout procedures.
- End-of-day reports, alerts, and more.
- Reporting specific to each individual user.
- An optional integrated fingerprint login.
- A range of system sizes to meet your property's key capacity and size requirements
